DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-5, drawn to analog-to-digital conversion of a photoelectric signal, classified in class 250, subclass 214A.
 - II. Claims 6-13, drawn to shifting and image processing of an analog signal, classified in class 250, subclass 208.1 and 208.2.
 - III. Claims 14 and 15, drawn to image processing of a digital signal, classified in class 250, subclass 214.1.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions of Group I, Group II and Group II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions accomplish different tasks. The invention of Group I amplifies and converts an analog signal to a digital signal representative of the incident light. There is no mention of subtraction or differential processing. The invention of Group II is concerned with image processing of signals from an array of analog photocells. There is no mention of converting to digital signals in Group II. The invention of Group III is only concerned with image processing of a digital signal, there is no mention of analog photocells.

Art Unit: 2878

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Anand Sethuraman on November 14, 2000 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thanh X. Luu whose telephone number is (703) 305-0539. The examiner can normally be reached on Monday-Friday from 8:00 AM - 5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Seungsook Ham, can be reached on (703) 308-4090. The fax phone number for the organization where the application or proceeding is assigned is (703) 308-7722.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0956.
